Sam Stubbs

sam.stubbs@example.com | (720) 555-0177 | github.com/sam-stubbs-example

Experience

Parcelwise - Senior Backend Engineer, Mar 2022 - present
- Lead a team of 4 engineers owning the shipment-tracking API (Go, PostgreSQL, Kafka)
- Cut p99 latency of the tracking endpoint from 900 ms to 180 ms by redesigning the cache layer
- Designed the event schema migration that moved 2 billion rows with no downtime

Ledgerly - Backend Engineer, Jun 2018 - Feb 2022
- Built payment reconciliation services in Python and Java
- On-call for the ledger service; wrote the runbooks the team still uses

Ledgerly - Software Engineer I, Jul 2016 - May 2018
- Maintained internal admin tools in Django

Education

Granite Valley University - B.S. Computer Engineering, 2016

Skills

Go, Python, Java, PostgreSQL, Kafka, Redis, AWS (ECS, RDS, SQS), Terraform, gRPC, observability (Prometheus, OpenTele
